The HabaCHAIN® product line

The HabaCHAIN® product line is designed, produced and serviced by a worldwide leader in conveyor belting – Habasit. HabaCHAIN® products offer world class quality and innovation combined with excellent reliability and cost efficiency.

HabaCHAIN® products are available in straight running and side-flexing versions. HabaCHAIN® is completely compatible with industry standards which allows for easy retrofits without conveyor modifications.

HabaCHAIN® products are available in a wide variety of problem solving materials such as, low friction, enhanced chemical resistance, anti-static, high temperature and magnetic.

- Meat - poultry - fish • Packaging • Dairy
- Electronics • Pharmaceuticals • Automotive
- Materials handling • Cardboard • Tissue • Textiles

Your solutions partner

Habasit is committed to understanding your design parameters and application needs. After reviewing your requirements, our engineering staff will suggest the best solution for each application.

Global expertise

With over 60 years of experience, the widest and most innovative product range, and an extensive global network, Habasit is the undisputed No. 1 in belting worldwide. We are dedicated to meeting your needs for innovative, high-quality, and perfectly serviced chain solutions.

Sprockets

The Multi-Hub sprocket design

Multi-Hub

Habasit's Patented Multi-Hub Split Sprocket and Split Idler Wheel design allows customers the flexibility to interchange sprocket tooth and idler rims with a wide variety of hub inserts. They are available with various bore sizes and configurations which provides flexibility to optimize inventory while reducing carrying cost.

1. Complete Multi-Hub split sprocket
2. Interchangeable Multi-Hub split idler wheel rim
3. Interchangeable Multi-Hub split sprocket tooth rim
4. Interchangeable Multi-Hub insert with round bore, keyway and setscrew for drive sprocket applications
5. Interchangeable Multi-Hub insert with plain round bore for idler sprocket applications

Snap-on chains

These use:

- Standard ANSI 40-1 roller chain sprockets from any supplier for 0.5" base chains (08A-1), suitable for 843, and 1843 series
- Standard ANSI 60-1 roller chain sprockets from any supplier for 0.75" base chains (12A-1), suitable for 863, 963, 1873, 1874, 2873, and 3873 series

Case chains

These use:

- Standard ANSI 40-1 or ANSI 60-1 roller chain sprockets from any supplier, suitable for 40P or 60P chains

Low friction

Habasit's "low friction" LF chain material delivers friction properties that meet or exceed those offered by other high performance materials at a premium price. This allows customers to optimize performance at a competitive price so the savings go right to your bottom line.

Over molds (high friction inserts)

Habasit's over mold capability allows us to provide high friction inserts in a wide range of profiles to support your conveying application needs.

These high friction inserts are molded directly into the chain for optimum performance and durability.

Habasit's high friction inserts are available in different hardness and can be adapted to almost any HabaCHAIN® style to handle the following applications.

- Inclines
- Declines
- Case/product turning
- Case/product orientation

For further information on availability of standard or custom inserts, please contact Habasit.
